## For whom?

A decades-long resident of the Jordan Valley

**Who perpetrated the destruction?** – The Civil Administration, which is supposed to ensure the welfare of the Palestinians.

**Who rushed to their aid?** – **The Red Cross**, to tend to their immediate needs.

**Who prevented the Red Cross from extending them aid?** – The Israel Defense Forces, the most moral army in the world.

**The result?** – Jordan Valley residents and their herds remain under the scorching sun, bereft of shade and water, without so much as a sukkah for protection.

**A persecuted people has become a persecutor.**

**On 16.9.13 the Civil Administration destroyed the dwellings, and all their contents, of three clans in the Jordan Valley.**

**On 18.9.13, the Civil Administration prevented The Red Cross from providing them with tents.**

**Since then the residents have been exposed to 40-degree heat.**
